

I think that XM Instant Traffic & Weather should stay on the air because it helps me out a lot. I used it just today because I was on my way to Tyson's with my family and we wanted to see if there was any traffic on the way there so we turned it to the updates for Washington D.C. and it told us what we were expecting to hit on the way to Tyson's. It would be a VERY HUGE MISTAKE if this was taken off XM Radio. Also I have to pay for this service every month and it really helps me out and shouldn't be up to the FCC to tell me whether or not I should be able to listen to it. If I'm paying for it each month I should have the right to listen to it since it is very beneficial!!!!!! If you could please reject the NAB's petition 04-160 and to support XM's ability to provide me with daily updates of traffic & weather it would be GREATLY appreciated!!!!!!
